CAREER OBJECTIVE

Detail-oriented **Data Analyst** skilled in **data cleaning**, **data preprocessing**, **exploratory data analysis (EDA)**, and **data visualization** using **Python**. Proficient in **SQL**, **Pandas**, **NumPy**, **Power BI**, **Excel**, and **Matplotlib** for **data analysis**, **reporting**, and **dashboard development**. Experienced in analyzing structured datasets, handling **missing values**, identifying **outliers**, performing **data validation**, and generating **actionable business insights** to support **data-driven decision making**.

EDUCATION

G H Raison College of Engineering, Jalgaon

Bachelor of Technology in CSE (Data Science)

2022 – 2026

CGPA: 8.63/10

TECHNICAL SKILLS

Programming Languages: Python, SQL

Libraries & Frameworks: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, TensorFlow, OpenCV

Databases: MySQL

Data Visualization: Power BI, Tableau, MS Excel

Data Analysis & ML: EDA, Data Cleaning, Data Validation, Feature Engineering, Classification, Regression

Data Pipelines & Processing: AWS Databricks, End-to-End Data Pipelines, Data Ingestion and Transformation, CI/CD using GitHub actions

Methodology: Agile Methodology

Language: English (Fluent), Hindi (Native), Marathi (Native)

PROJECTS

HealthAI Suite — Clinical AI Analytics Platform — AI / ML

Jan 2026

Freelance / End-to-End ML System

GitHub: github.com/Jack-tech32/AIhealth

- Developed an end-to-end clinical analytics and diagnostic AI system for patient intelligence.
- Built regression models to predict patient outcomes and hospital length of stay.
- Implemented a CNN-based pneumonia detection model and deployed the ML pipeline using Streamlit.

Pizza Sales Dashboard

Oct 2025

GitHub: github.com/Jack-tech32/Pizza-Sales-Dashboard

- Created a Power BI dashboard to analyze pizza sales, revenue, quantity, and orders.
- Used charts and filters to analyze sales by pizza category, size, and time period.
- Identified top-selling and low-selling pizzas to understand sales performance.

Jack E Commerce Dashboard

jan 2024

GitHub: [github.com/Jack-tech32/Jack E-Commerce Dashboard](https://github.com/Jack-tech32/Jack-E-Commerce-Dashboard)

- Created a Power BI dashboard to analyze sales, profit, quantity, and AOV.
- Used charts and filters to analyze sales by customer, category, state, and time.
- Identified sales trends and top-performing categories to support business decisions.

CERTIFICATIONS

- Business Analytics Using Excel
- OCI Data Science Professional — ORACLE
- Power BI Certificate
- SQL Intermediate — HackerRank
