CAREER OBJECTIVE

Data Engineer Intern with **6 months of hands-on experience** building scalable **data pipelines** and analytics systems. Proficient in **Databricks, PySpark, SQL**, and **AWS** for large-scale data processing and transformation. Skilled in **data quality**, **performance optimization**, and delivering **business-driven insights** from data. Also experienced with **LLMs, RAG**, and **LangChain** for developing intelligent data and AI applications..

TECHNICAL SKILLS

Programming	Python, SQL
Data Engineering	Databricks, PySpark, Data Pipelines
Libraries	Pandas, NumPy, Matplotlib, Scikit-learn
AI & GenAI	LLMs, RAG, LangChain
Cloud	AWS (S3, Glue, Athena), Azure Basics
Visualization	Power BI, MS Excel
Tools	Git, GitHub, CI/CD, Jupyter Notebook, VS Code
Database	MySQL
Methodology	Agile

PROFESSIONAL EXPERIENCE

Data Engineer Intern

2GBR Software Pvt Ltd (6 Months)

Project: Carousell – Online Marketplace

Tech Stack: Databricks, PySpark, Python, SQL, AWS S3, Git

- Developed end-to-end data pipelines using Databricks and PySpark for scalable data ingestion and transformation.
- Processed and optimized large datasets using SQL and distributed computing techniques to improve pipeline efficiency.
- Implemented data validation checks and performance tuning to ensure data reliability and pipeline quality.
- Collaborated with cross-functional teams and used Git for version control and code management.

PROJECTS

HealthAI Suite — Clinical AI Analytics Platform — AI / ML

Jan 2026

Freelance / End-to-End ML System GitHub: github.com/Jack-tech32/AIhealth

- Developed an end-to-end clinical analytics and diagnostic AI system for patient intelligence.
- Built regression models to predict patient outcomes and hospital length of stay.
- Implemented a CNN-based pneumonia detection model and deployed the ML pipeline using Streamlit.

EDUCATION

G H Raisoni College of Engineering, Jalgaon

2022 – 2026

Bachelor of Technology in CSE (Data Science)

CGPA: 8.63/10

CERTIFICATIONS

- OCI Data Science Professional — ORACLE (2025)
- SQL Basic & Intermediate — HackerRank (2025)
- GenAI Powered Data Analytics — TATA Forage (2025)
- Databricks for Data Engineering — SimpliLearn
- Internship Completion Data Engineer Intern — *1 Jan - 30 Jun*
